

THE BUSINESS CASE FOR AUTOMATED SAMPLING

COST REDUCTION • IMPROVED PRODUCTIVITY • BETTER QUALITY ONLINE REACTOR MONITORING – AUTOMATED SOLUTION

Take 5 minutes to view a **concise webcast** hosted by Dr. Brian O'Flaherty, Director of Sales at Groton Biosystems, illustrating **the compelling value proposition** of automating your process.

Let Groton Biosystems be your bioprocess partner for –

- ✓ Reduction in labor and the human error factor
- ✓ Increased productivity and decreased time to market
- ✓ Improved overall processes and quality

Dr. O'Flaherty talks through the issues and challenges facing the biopharmaceutical industry and explains how Groton Biosystems partners with our customers to improve the overall process.

BRINGING VALUE TO YOUR BIOPHARMACEUTICAL PROCESS

As mentioned in the webcast Groton Biosystems makes available an

INTERACTIVE FINANCIAL CALCULATOR

[Click here to link directly to the Financial Calculator](#)

or type in your browser

<http://www.grotonbiosystems.com/calculator/arscalculator.php>

Enter how often you are sampling your bioreactors today, enter how often you would like to sample your bioreactors - and immediately see the payback of automated sampling.

Our commitment to work with our customers, onsite and remotely, ensures they reach their goals for success and sets Groton apart as the leader in reactor autosampling.

Contact Dr. Brian O'Flaherty at brian.oflaherty@grotonbiosystems.com or +978-268-2914 for more information.
